**PROVIDING EXCEPTIONAL
SERVICE AND VALUE**

Welcome to Membership in United Cooperative Services!

What is United Cooperative Services?

United Cooperative Services is a nonprofit, member-owned electric cooperative serving nearly 100,000 electric meters in 14 North Texas counties. Unlike its for-profit, investor-owned counterparts in the electric utility industry, United is owned and governed by the people who receive the service—our membership. Being a member of United means you have a voice and our members gave us a clear directive in 2019 to go beyond providing reliable electric service. They asked their cooperative to bring them true high-speed internet. Today, thousands of members are enjoying a world-class internet experience in addition to one of the most reliable and affordable electricity services in North Texas.

Our employees work hard every day to deliver on the promise and mission of our cooperative: We will provide our membership with exceptional service and value.
